📜 DareVita Rules & Requirements

To ensure fairness, sustainability, and compliance across the field, all Ambassadors must follow these core guidelines. These rules support the integrity of the comp plan and your path to long-term success.

✅ Core Rules:

1. **Personal Order Required**
   You must have an **active personal subscription order** to qualify for commissions each month.

2. **Proper Allocation of Enrollments**
   You must **assign** your personally enrolled consumers and Ambassadors to your username **before placing anyone under them**.
   - If you fail to do so, system defaults may affect your structure and payout.

3. **1:1 Volume Credit**
   Volume is calculated based on **actual purchases** at a **1:1 ratio** — no inflated or arbitrary point systems.

4. **No Commission on Personal Orders**
   You do **not receive commission** or volume credit from your **own purchases**.

5. **Understand the Difference: "30 Days" vs. "30 Calendar Days"**
   - **Impact Bonus Window** = 30 days from the timestamp of placement
   - **Placement Rules** = based on **calendar days** (by end of the enrollment month)
     ➤ These are separate and **must be tracked independently**.

6. **Rank Volume Balance Requirements**
   - Each rank has a **maximum percentage** that can come from your **strongest leg**.
   - There is also a **minimum requirement** from **your lesser legs** (at least 10%).
   - **Example (Rank 6):**
     - Total Required Volume = $25,000

- Max from Strong Leg = $12,500 (50%)
- Minimum from Lesser Legs = $2,500
- Remaining volume can come from any additional leg(s).

7. **Leadership, Branding & Trust**
   As you rise in rank, DareVita invests in you — **not just financially, but reputationally**.
   - Leaders must agree to additional **branding and behavioral standards**.
   - Completion of a **Distributor Agreement** and compliance with leadership guidelines are required to maintain access to advanced rank benefits and visibility.
